SUMMARY

Hi, I'm Hritik Sharma — a B.Tech CSE student passionate about building user-friendly websites, scalable backend systems, and tech communities that empower others to grow. I'm currently honing my skills in JavaScript, React.js, Next.js, Node.js, Express.js, and MongoDB, while exploring AI integrations to make my web projects smarter and more impactful. I've completed hands-on internships at CyberFort Technologies and EduBuddy, where I worked on real-world projects involving frontend development, API integration, and backend logic.

WORK EXPERIENCE

- Client Success Intern, Edubuddy****April 2025 - July 2025**
- As a Client Success Intern at EduBuddy, I assist in onboarding clients, resolving queries, and ensuring a smooth experience. I collaborate with internal teams, support client engagement initiatives, and help drive satisfaction and retention. Passionate about building strong relationships and delivering value through proactive communication and strategic support.
- Web Development Intern, CyberFort Tech.****June 2025 - September 2025**
- As a Web Development Intern at CyberFort Tech, I contribute to building the frontend of a Student Management System, focusing on creating responsive and user-friendly interfaces. I collaborate with backend teams to integrate APIs, ensure smooth data flow, and enhance overall system usability. I support development workflows, optimize performance, and help deliver a seamless user experience through clean, efficient code and structured design.

EDUCATION

- Bachelor of Technology in Computer Science and Engineering****August 2022 - May 2026**
- Vision Institute of technology, Madrak, Aligarh
- Intermediatory Studies****April 2021 - March 2022**
- Aadarsh Gyandeep Inter College, Aligarh
